### 7wk:

#### Litter Overall:

Bailey Litter overall is very consistent. They are personable, affectionate, and fun loving. They are all curious and out-going. They react appropriately when interacting with one another and with other dogs. They are tolerant to changes of environment and when put into the situations of stress. They are curious with new sights and sounds, wanting to investigate. They possess good focus, motivations, problem-solving abilities, and memory that will aid in training the puppies. They are appropriate with interactions. The litter is rarely vocal. They are tolerant and gentle with handling and interactions and possess good bite inhibition. They show no possessiveness and have no red flags. They have a mid-level energy and they do not excite easily. Most have middle of the road temperament, which means no extremes in temperament and makes them suitable for most any home. There are some variances between individuals listed below.

#### Individual Notes:

Red Dot has mid-level energy. She is curious and self-assured. She is also content to play on her own. She was a very personable and playful. She was motivated by toys, food, and interaction. She was very eager to explore and check out new things. She will do well in most any home.

## **Health notes:**

Some tear staining, but should resolve on its own.
