Individual Notes:

Ferrari blue is confident and self-assured. He shows little to no stress in new situations, around new people, or in circumstances that are typically considered stressful. He reacts appropriately to new sites and sounds, including those that are startling. He is curious and investigative. He has a good memory, focus, and problem solving abilities average for his age and stage of development. He has good motivations for interaction, food and toys at equal and balanced levels. He is socially appropriate in his interactions with litter mates, cats and with other dogs. He is also socially appropriate in his interactions with people. He rarely uses his mouth to initiate or engage in play and has excellent bite inhibition if he does. He is also rarely vocal. He is comfortable and tolerant of handling and restraint. He actively seeks out this type of interaction. The litter overall have no red flags and show no possessiveness. These puppies are very consistent. They all have mid-level energy and potential for therapy work. They are content to explore and play on their own, but would rather be with an around people. These puppies are social, happy, eager, and engaging. They are personable, affectionate and gentle with handling and interaction. These puppies are well balanced and should adapt well into most any home, but would do best in a home that is going to be interactive with them.

Health notes:

Blue has no health notes.
