Individual Notes:

Iris Red overall is confident and self-assured. She has mid to moderate energy. She is social, eager, engaging, personable and affectionate. She is also very happy, playful, and bubbly. She is comfortable and tolerant of handling and restraint. She can be a little wiggly with handling, but it is just due to excitement. She is curious, but also content to play

on her own. She shows no stress in new situations, around new people or in circumstances that are considered stressful. She reacts appropriately to new sights and sounds, including those that would be considered startling. She has a good memory, focus and problem-solving abilities average to her age and stage of development. She also has good motivations for interaction and food with a interest in toys. She is socially appropriate in her interactions with her litter mates, other dogs, cats and people. She has no red flags in her personality and shows no possessiveness. All of these puppies are very well balanced and should adapt well into most any home.

Health notes:

Red has no health notes.
