### 7 Wk:

#### Litter Overall:

The Margarita litter overall is confident and self-assured. They are appropriately social with one another, with other dogs and with cats. They show no stress in new situations, around new people or circumstances that would typically be considered stressful. They react appropriately to new sights and sounds by being curious and investigative. They recover quickly if startled. This litter has average focus, good memory and problem-solving abilities. They have good motivation for food, toys and interaction. They are appropriate in their social interactions with people by being very gentle. Overall they rarely use their mouths and they have very good bite inhibition. This litter rarely vocalizes. They are very comfortable and tolerant of handling and restraint. They are very personable and have no red flags. They show no possessiveness. This litter is very consistent with very few differences from puppy to puppy.

#### Individual Notes:

Margarita Blue has mid to moderate energy. He is confident and self-assured. He's content to explore and play on his own, although he prefers to be with people. He is very personable and affectionate. He is eager to interact he is playful and curious and motivated by interaction food and toys he has no extremes and temperament and would be well-suited in most any home

#### Health notes:

Margarita Blue has base narrow.
