7 Wk:

Litter Overall:

The Sable litter overall are confident and self-assured. They are appropriately social with other dogs and one another. They show no stress in new situations, around new people, or in circumstances that would be typically considered stressful. They react appropriately to new sights and sounds, showing very little startling and being curious and investigated. They have good motivations towards food, interaction, and toys. They have good memory, focus, and problem-solving abilities. They are appropriate in their interactions with people, being comfortable and tolerant to handling and restraint. They have no red flags and show no possessiveness. They are rarely vocal and rarely use their mouth in play and interaction. They have mid to moderate energy levels.

Individual Notes:

Blue Dot has moderate energy. He is very confident and self-assured. He is content to explore and play on his own but prefers to be with people. He is personable and affectionate and works to engage and interact. He is playful and curious. He is very bubbly and eager. He is motivated by toys, food, and interaction. He has no extremes of temperament and would be well-suited in most any home. He does have the necessary traits for therapy work.

Health notes:

Blue Dot has base narrow level one.
